AIM & SCOPE

Computer network & communication book series provides a premier interdisciplinary platform for researchers, practitioners and educators to publish not only the most recent innovations, trends, and concerns but also practical challenges encountered and solutions adopted in the fields of networks and communication. This book will provide an excellent international forum for sharing knowledge and results in theory, methodology and applications of Computer network & communication. The book series looks for significant contributions to all major fields of the networking and communication technologies in theoretical and practical aspects. It provides a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field. Authors are solicited to contribute to the book series by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the following areas, but are not limited to

Communication Networks
Wireless Communications
Mobile Communications
Infrastructure for Next Generation Networks
Information & Communication
Optical Communications
Internet Technologies
Communication Software
Ad-Hoc
Sensing and Sensor Networks
Antenna and Microwave
Modulation and Signal Processing Information Theory and Coding
Radar Imaging
Telematics Services
Security Network and Radio Communication
Satellite and Space Communications
Emerging Communication Technology and Standards
Engineered Self-Organization and Self-Organizing Computing Systems
Swarms and Swarm Intelligence
Pervasive and Mobile Computing
Sensor Networks
P2P and Cloud Computing
Web and Participatory Systems
Adaptive Algorithms
Operating Systems and Middleware for Autonomous and Adaptive Systems
Parallel computing

Author Benefits

1. Selected chapters (not all) will be indexed in RSquareL and other indexing platforms including Amazon, Google Books etc.
2. Publication of chapter in book series with ISBN / ISSN
3. Publishing in IIP Proceedings Digital Library with DOI
4. Open access mode of publication in IIP Digital library
5. Optimised searching options to increase the visibility of the work to readers and other researchers which helps in citations.
6. Unique **dashboard** to Author
7. Easy paper/chapter management system with transparency of the process including peer review
8. Adds points to API as per NAAC & NBA (India) and other accreditation bodies from abroad
9. One complimentary copy per chapter
10. Certificate to all authors who contributed chapter(s)
