AIM & SCOPE

Physical Sciences book series aims to bring together leading academic scientists, researchers and research scholars to exchange and share their experiences and research results on all aspects of Physical Sciences. It also provides a premier interdisciplinary platform for researchers, practitioners, and educators to publish the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Physical Sciences. The field of advanced physical sciences has not only helped the development in various fields in Science and Technology but also contributes the improvement of the quality of human life to a great extent. The focus of the book would be on state-of-the-art technologies and advances in Physical Sciences. It provides a remarkable opportunity for the academic, research and industrial communities to address new challenges and share solutions and discuss future research directions in the below field but not limited to

Astrophysics

Atmospheric and Space Physics

Atomic & Molecular Physics

Biophysics

Condensed Matter & Materials Physics

General & Interdisciplinary Physics

Quantum Science & Technology

Nonlinear Dynamics & Complex Systems

Nuclear Physics

Optics and Spectroscopy

Particle Physics

Plasma Physics

Relativity & Cosmology

Statistical Physics

Author Benefits

1. Selected chapters (not all) will be indexed in RSquareL and other indexing platforms including Amazon, Google Books etc.
