Call for Chapters
Recent Trends In Mathematical Analysis and Applications

Aim & Scope

Mathematics is one of the oldest and most important disciplines in academia. With the development of technology, mathematics has become more advanced and complex. In recent years, there has been a significant trend towards using mathematics to solve real-world problems. This includes using mathematical models to predict stock market trends, analyzing data sets for medical research, and developing algorithms for autonomous vehicles. Advance mathematics is becoming increasingly important in many fields such as finance, engineering, and computer science. As such, it is important to understand the latest trends in advance mathematics so that they can stay ahead of the curve. In this ook our main focus is to present the origial research work, brief overview and review chapters enlighting theoritical advances in mathematics an application in recent trends. The book will explore the following topics:

- algebraic geometry
- algebraic topology
- analysis of PDEs
- category theory
- classical analysis and ODEs
- combinatorics
- commutative algebra
- complex variables
- differential geometry
- dynamical systems
- functional analysis
- general mathematics
- general topology
- geometric topology
- group theory
- history and overview
- information theory
- K-theory and homology
- logic
- mathematical physics
- metric geometry
- number theory
- numerical analysis
- operator algebras
- optimization and control
- probability
- quantum algebra
- representation theory
- rings and algebras
- spectral theory
- statistics theory
- symplectic geometry
- geometric analysis
- variational problems
- mathematical finance
- harmonic analysis
- computer science
- quantum theory
- mathematical and computational biology

Author Benefits

1. Selected chapters (not all) will be indexed in RSquareL and other indexing platforms including Amazon, Google Books etc.
2. Publication of chapter in book series with ISBN / ISSN
3. Publishing in IIP Proceedings Digital Library with DOI
4. Open access mode of publication in IIP Digital library
5. Optimized searching options to increase the visibility of the work to readers and other researchers which helps in citations.
6. Unique dashboard to Author
7. Easy paper / chapter management system with transparency of the process including peer review
8. Adds points to API as per NAAC & NBA (India) and other accreditation bodies from abroad
9. One complimentary copy per chapter
10. Certificate to all authors who contributed chapter(s)

Chapter submission procedure:

Step 1: Go to IIP website **www.iipproceedings.org**
Step 2: Register in the portal by clicking on Signup
Step 3: You can submit chapter at your dashboard or directly through IIP website after you login
Step 4: Click on "submit chapters"
Step 5: Select the book series title along with Book Series ID to which you wish to submit
Step 6: Upload all necessary details along with your chapter in word file format.Refer "IIP Chapter format" at download in IIP Website

Support from IIP to the Editors & Authors
- Reviewing support from IIP Reviewers
- Plagiarism checking service through Turnitin
- Submission management
- Registration management
- Individual dashboard
