## AIM & SCOPE

Computer network & communication book series provides a premier interdisciplinary platform for researchers, practitioners and educators to publish not only the most recent innovations, trends, and concerns but also practical challenges encountered and solutions adopted in the fields of networks and communication. This book will provide an excellent international forum for sharing knowledge and results in theory, methodology and applications of Computer network & communication. The book series looks for significant contributions to all major fields of the networking and communication technologies in theoretical and practical aspects. It provides a platform to the researchers and practitioners from both academia as well as industry to meet and share cutting-edge development in the field. Authors are solicited to contribute to the book series by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant advances in the following areas, but are not limited to

*Communication Networks*  
*Wireless Communications*  
*Mobile Communications*  
*Infrastructure for Next Generation Networks*  
*Information & Communication*  
*Optical Communications*  
*Internet Technologies*  
*Communication Software*  
*Ad-Hoc*  
*Sensing and Sensor Networks*  
*Antenna and Microwave*  
*Modulation and Signal Processing Information Theory and Coding*  
*Radar Imaging*  
*Telematics Services*  
*Security Network and Radio Communication*  
*Satellite and Space Communications*  
*Emerging Communication Technology and Standards*  
*Engineered Self-Organization and Self-Organizing Computing Systems*  
*Swarms and Swarm Intelligence*  
*Pervasive and Mobile Computing*  
*Sensor Networks*  
*P2P and Cloud Computing*  
*Web and Participatory Systems*  
*Adaptive Algorithms*  
*Operating Systems and Middleware for Autonomous and Adaptive Systems*  
*Parallel computing*

## Author Benefits

1. Peer reviewed publication
2. Selected chapters will be indexed in RSquareL and other indexing platforms including Amazon, Google Books etc.
3. Dual mode publication (One as an edited book with ISBN and another one as a Journal paper with ISSN)
4. DOI allotment to each chapter
5. Open access mode of publication in IIP Digital library
6. Optimised searching options to increase the visibility of the work to readers and other researchers which helps in citations
7. Unique dashboard to Author
8. Easy paper / chapter management system with transparency of the process including peer review
9. Adds points to API as per NAAC & NBA (India) and other accreditation bodies from abroad
10. One complimentary copy per chapter registration
11. Certificate to all authors who contributed chapter(s)
