Recent Trends in Fuzzy Set Theory and Its Applications

Aims and Scope:

An outstanding international forum for academics and researchers to publish their work and exchange views on the most recent advancements in fuzzy set theory and its applications is provided by the edited book titled Recent Developments in Fuzzy Set Theory and its Applications. IIP requests publications from researchers for consideration. Its objective is to assist researchers by disseminating knowledge, research, and practical applications. The publication of original papers, reports of professional experience, comments, and reviews is made easier by this book. Researchers, scholars, teachers, postgraduate and undergraduate students, faculty members of higher education institutions, and representatives from other academic institutions make up the target audience. We welcome submissions on the following subjects, among others, but not exclusively:

1. Fuzzy Topology and its extension
2. Fuzzy Optimization
3. Fuzzy Image Processing
4. Fuzzy Algebra and its applications
5. Fuzzy Graphs and its extensions
6. Neutrosophic Sets Theory and Their Extensions
7. Fuzzy Decision making
8. Differential equations and its applications
9. Probability and Statistics
10. Difference equations and its applications

Author Benefits:

1. Selected chapters (not all) will be indexed in RSquareL and other indexing platforms including Amazon, Google Books etc.
2. Publication of chapter in book series with ISBN / ISSN
3. Publishing in IIP Proceedings Digital Library with DOI
4. Open access mode of publication in IIP Digital library
5. Optimized searching options to increase the visibility of the work to readers and other researchers which helps in citations.
6. Unique dashboard to Author
7. Easy paper/chapter management system with transparency of the process including peer review
8. One complimentary copy per chapter
9. Certificate to all authors who contributed chapter(s)
