Title Futuristic Trends in Herbal Medicines and Food Products

Aim & Scope

The primary aim of the book is to provide an in-depth analysis and forecast of the future of herbal medicine and food products. It aims to examine the potential of herbal remedies and natural ingredients in the context of modern healthcare and nutrition. The book intends to shed light on the evolving landscape of herbal medicine and food products, exploring how they can contribute to improving human health and well-being in the future.

Emerging Herbal Medicine Trends: The book would cover the latest developments and futuristic trends in herbal medicine, including the discovery of new medicinal plants, advanced extraction techniques, and innovative formulations. It would explore how these trends can impact healthcare practices, disease prevention, and the treatment of various ailments.

Innovative Food Product Development: The scope would extend to futuristic trends in the development of food products incorporating herbal ingredients. It would delve into cutting-edge technologies, such as functional foods, nutraceuticals, and herbal supplements, and their potential to enhance nutrition, promote well-being, and address specific health concerns.

Sustainable and Eco-friendly Approaches: The book would examine how future trends in herbal medicine and food products align with sustainable practices and environmental conservation. It would explore concepts like organic farming, agroforestry, and eco-friendly packaging to highlight the importance of sustainable production methods and their impact on the quality and efficacy of herbal medicine and food products.

Regulatory and Safety Considerations: The book would also address the regulatory frameworks and safety considerations associated with futuristic trends in herbal medicine and food products. It would discuss the need for standardized guidelines, quality control measures, and safety assessments to ensure the efficacy, quality, and consumer trust in these emerging products.

Integration of Traditional Knowledge and Modern Science: The scope would encompass the integration of traditional knowledge systems and modern scientific advancements in the field of herbal medicine and food products. The book would explore the synergies between ancient herbal practices and contemporary scientific research to promote evidence-based approaches and innovation in the field.

Overall, the aim and scope of the book would provide an authoritative and comprehensive exploration of futuristic trends in herbal medicine and food products, offering valuable insights for researchers, healthcare professionals, industry practitioners, policymakers, and individuals interested in the field.

Chapter submission procedure:

- Step 1: Go to IIP website www.iipseries.org
- Step 2: Register in the portal by clicking on Signup
- Step 3: You can submit chapter at your dashboard or directly through IIP website after you login
- Step 4: Click on "submit chapters"
- Step 5: Select the book series title along with **Book Series ID** to which you wish to submit
- Step 6: Upload all necessary details along with your chapter in word file format. Refer "IIP Chapter format" at download in IIP Website

Support from IIP to the Editors & Authors

- Reviewing support from IIP Reviewers
- Plagiarism checking service
- Submission management
- Registration management
- Individual dashboard
