Emerging Trends in Cyber Security

Aim & Scope

This comprehensive book aims to provide readers with an in-depth understanding of the evolving landscape of cyber security and its multifaceted challenges. By addressing a wide range of topics including emerging trends, next-gen threats, AI and machine learning integration, network and cloud security, mobile and IoT application vulnerabilities, and specialized vehicle applications security, the book aims to equip readers with the knowledge and insights needed to navigate and counteract the diverse cyber threats that modern technologies bring. Through a holistic approach, the book seeks to bridge the gap between theory and practical implementation, fostering informed decision-making and proactive strategies in safeguarding digital assets. The scope of this book is to offer a comprehensive exploration of the intricate and evolving realm of cyber security, encompassing a variety of critical subjects. It covers emerging trends that shape the cyber landscape, delves into the intricate challenges posed by next-gen threats, and showcases how artificial intelligence and machine learning are transforming threat detection and mitigation. The book also extends its focus to encompass the complexities of network, cloud, and internet application security, elucidating strategies for safeguarding interconnected systems. Additionally, it investigates the vulnerabilities inherent in mobile applications and Internet of Things (IoT) devices, while delving into the unique security considerations associated with vehicle applications, reflecting the integration of modern technologies in the automotive industry. By addressing these varied dimensions, the book aims to provide readers with a well-rounded understanding of contemporary cyber security concerns and proactive defense mechanisms.

List of Topics:

1. Introduction to Emerging Trends in Cyber Security
2. Next-Gen Threat Landscape: Challenges and Opportunities
3. AI and Machine Learning in Cyber Security
4. Network, Cloud and Internet Applications Security
5. Mobile Application Security,
6. Securing the IoT Ecosystem
7. Vehicle Applications Security

Author Benefits:

1. Selected chapters (not all) will be indexed in RSquareL and other indexing platforms including Amazon, Google Books etc.
2. Publication of chapter in book series with ISBN / ISSN
3. Publishing in IIP Proceedings Digital Library with DOI
4. Open access mode of publication in IIP Digital library
5. Optimized searching options to increase the visibility of the work to readers and other researchers which helps in citations.
6. Unique dashboard to Author
7. Easy paper/chapter management system with transparency of the process including peer review
8. One complimentary copy per chapter

Chapter submission procedure:

- Step 1: Go to IIP website www.iipseries.org
- Step 2: Register in the portal by clicking on Signup
- Step 3: You can submit chapter at your dashboard or directly through IIP website after you login
- Step 4: Click on "submit chapters"
- Step 5: Select the book series title along with **Book Series ID** to which you wish to submit
- Step 6: Upload all necessary details along with your chapter in word file format. Refer "IIP Chapter format" at download in IIP Website

Support from IIP to the Editors & Authors

- Reviewing support from IIP Reviewers
- Plagiarism checking service
- Submission management
- Registration management
- Individual dashboard

For any queries

Contact: + 9866974070

Mail us: kireet04@gmail.com

Registration fee: USD 40 INR.2000/- which includes processing fee with all above mentioned supporting services, Certificate hard copy to all authors, one complimentary copy of the book series per registration.
