Call for Chapters

Streamlining Efficiency in Business with Industry 5.0

Aims and Scope:

After ten years of providing industry 4.0 to address the shortcomings of the industry, the time has come for industry 5.0. Industry 4.0 is limited since smart factories are raising corporate productivity. There will be discussions of industry 5.0 opportunities, constraints, and prospects for future research in this book. Industry 5.0 is bringing about a paradigm shift and resolution by placing less emphasis on technology and assuming that human-machine cooperation is the foundation for progress. By using customized products, the industrial revolution is increasing customer satisfaction. Industry 5.0 is necessary in today's business environment due to the paid technological advancements to provide the factory with both competitive advantages and economic growth. The goal of the book is to analyze industry 5.0's possible uses. Research papers that discuss applications enabled by Industry 5.0, such as cloud manufacturing, healthcare, supply chain, and manufacturing production, can be included. This book can cover a variety of technologies, including blockchain, digital twins, Internet of Things, big data analytics, and upcoming 6G systems. To understand the problems brought on by interactions between humans and robots on an assembly line, studies may also consider the challenges and problems related to the mentioned sub themes covered in this book.

List of Topics:

- Integration of Cyber-Physical Systems (CPS)
- AI and Machine Learning in Process Optimization
- Internet of Things (IoT) and Real-time Data Analytics
- Human-Machine Collaboration
- Advanced Robotics and Automation
- Sustainable Manufacturing and Efficiency
- Blockchain Technology and Supply Chain Transparency
- Digital Twins and Predictive Maintenance
- Adaptive and Flexible Production Systems
- Challenges and Opportunities in Adopting Industry 5.0

Author Benefits:

1. Selected chapters (not all) will be indexed in RSquareL and other indexing platforms including Amazon, Google Books etc.
2. Publication of chapter in book series with ISBN / ISSN
3. Publishing in IIP Proceedings Digital Library with DOI
4. Open access mode of publication in IIP Digital library
5. Optimized searching options to increase the visibility of the work to readers and other researchers which helps in citations.
6. Unique dashboard to Author
7. Easy paper/chapter management system with transparency of the process including peer review
8. One complimentary copy per chapter
9. Certificate to all authors who contributed chapter(s)

Chapter Submission Procedure:

Step 1: Go to IIP website **www.iipseries.org**
Step 2: Register in the portal by clicking on Signup
Step 3: You can submit chapter at your dashboard or directly through IIP website after you login
Step 4: Click on submit chapters
Step 5: Select the book series title along with Book Series ID to which you wish to submit
Step 6: Upload all necessary details along with your chapter in word file format. Refer **IIP** Chapter format at download in IIP Website

Support from IIP to the Editors & Authors

*Reviewing support from IIP Reviewers
*Plagiarism checking service
*Submission management
*Registration management
*Individual dashboard
