Call for Chapters

Overview chapters from Harnessing AI, Machine Learning, and IoT for Intelligent Business

Aims and Scope:

The primary aim of this book is to provide a comprehensive overview of the latest advancements in Artificial Intelligence (AI), Machine Learning (ML), and the Internet of Things (IoT) and their applications in transforming businesses into intelligent, data-driven organizations. The book aims to bridge the gap between the theoretical foundations of these technologies and their practical applications in various industries, enabling businesses to harness their potential and stay competitive in a rapidly changing market. This book will cover a wide range of topics related to AI, ML, and IoT, with a focus on their applications in business. The chapters will provide an overview of the current state-of-the-art in these fields, highlighting the key concepts, techniques, and tools used in intelligent business systems. The book will also explore the challenges and opportunities associated with the adoption of these technologies, as well as their potential impact on business models, processes, and strategies. The target audience includes business leaders, managers, and professionals who want to understand the potential of AI, ML, and IoT in transforming their organizations, as well as researchers and academics interested in the latest developments in these fields. List of Topics: Introduction to AI, ML, and IoT AI and ML for Business Analytics and Decision Making IoT for Industrial Automation and Smart Manufacturing AI-Powered Customer Service and Experience ML for Predictive Maintenance and Quality Control IoT for Supply Chain Optimization and Logistics AI and ML for Cybersecurity and Risk Management Ethics and Governance of AI and ML in Business Case Studies: Successful Implementations of AI, ML, and IoT in Various Industries Future Directions: Emerging Trends and Opportunities in AI, ML, and IoT for Business

List of Topics :

- Chapter 1: Introduction to AI, ML, and IoT
- Chapter 2: AI and ML for Business Analytics and Decision Making
- Chapter 3: IoT for Industrial Automation and Smart Manufacturing
- Chapter 4: AI-Powered Customer Service and Experience
- Chapter 5: IoT for Supply Chain Optimization and Logistics
- Chapter 6: AI and ML for Cybersecurity and Risk Management
- Chapter 7: Machine Learning for Cloud Security
- Chapter 8: Ethics and Governance of AI and ML in Business
- Chapter 9: Case Studies: Successful Implementations of AI, ML, and IoT in Various Industries
- Chapter 10: Future Directions: Emerging Trends and Opportunities in AI, ML, and IoT for Business

Author Benefits:

1. Selected chapters (not all) will be indexed in RSquareL and other indexing platforms including Amazon, Google Books etc.
2. Publication of chapter in book series with ISBN / ISSN
3. Publishing in IIP Proceedings Digital Library with DOI
4. Open access mode of publication in IIP Digital library
5. Optimized searching options to increase the visibility of the work to readers and other researchers which helps in citations.
6. Unique dashboard to Author
7. Easy paper/chapter management system with transparency of the process including peer review
8. One complimentary copy per chapter
9. Certificate to all authors who contributed chapter(s)

Chapter Submission Procedure:

- Step 1: Go to IIP website www.iipseries.org
- Step 2: Register in the portal by clicking on Signup
- Step 3: You can submit chapter at your dashboard or directly through IIP website after you login
- Step 4: Click on submit chapters
- Step 5: Select the book series title along with **Book Series ID** to which you wish to submit
- Step 6: Upload all necessary details along with your chapter in word file format. Refer IIP Chapter format at download in IIP Website

Support from IIP to the Editors & Authors

- *Reviewing support from IIP Reviewers
- *Plagiarism checking service
- *Submission management
- *Registration management
- *Individual dashboard
