

Call for Book Chapters/Research Papers for Edited Books To be published with ISBN under IIP International publishers, USA and India Futuristic Trends in Global Climate Change & Health Vulnerability

Series Editors:

Dr. Mahammed Osim Aquatar
Ph.D., (Environmental Science), AcSIR
Research Fellow
Climate Change & Green Materials Division (CCGMD)
CSIR-National Environmental Engineering Research Institute (NEERI), Nagpur
India
mdaquatar.88@gmail.com

Prof. Hemeswari Bhuyan
Ph.D. (Public Health)
Professor
Royal School of Nursing
The Assam Royal Global University, Guwahati, Assam
India
hbhuyan@rgu.ac

Dr. Zahid Nabi
PhD, Environmental Science (Central University of Jammu)
Research Fellow
Climate Change & Green Materials Division (CCGMD)
CSIR-National Environmental Engineering Research Institute (NEERI), Nagpur
India
zahidrazaqadri@gmail.com

Prof. Sirajuddin Ahmed
Ph.D.
Professor & Head
Department of Environmental Science
Jamia Millia Islamia, New Delhi
India
suahmed@jmi.ac.in

Dr. Omkar Singh Kushwaha
Ph.D.
Senior Principal Project Scientist
The Energy Consortium
IIT-Madras, Tamil Nadu
India
Kushwaha.iitmadrass@gmail.com

Call for Chapters

Futuristic Trends in Global Climate Change & Health Vulnerability

Aims and Scope:

The book entitled “Futuristic Trends in Global Climate Change & Health Vulnerability” aims to provide a comprehensive and forward-looking examination of the intricate connections between climate change and health vulnerabilities. As the planet continues to warm, the frequency and intensity of extreme weather events, such as heatwaves, floods, and hurricanes, are expected to increase, posing significant risks to human health. This book will explore how these climatic changes exacerbate existing health disparities, particularly among vulnerable populations, and will highlight innovative strategies for adaptation and mitigation. By bringing together leading experts from various fields, including climate science, public health, and policy, this volume will offer a multidisciplinary perspective on the challenges and opportunities presented by climate change. It will also emphasize the importance of cross-sectoral collaboration and the integration of indigenous knowledge in developing resilient health systems. High-quality contributions reporting novel and unpublished conceptual, constructive, empirical, experimental, or theoretical work are warmly welcomed in the topic of global climate change and health vulnerability. It will be beneficial for aspiring researchers to get ideas and objectives for their research in the aforementioned areas. Through a combination of empirical research, case studies, and theoretical analysis, the book will serve as an essential resource for researchers, academicians, policymakers, and practitioners dedicated to safeguarding public health in the face of a changing climate.

List of Topics:

- The Intersection of Climate Change and Public Health
- Extreme Weather Events and Health Outcomes
- Climate Change and Vector-Borne Diseases
- Food Security and Nutritional Challenges in a Warming World
- Mental Health Impacts of Climate Change
- Health Vulnerabilities in Marginalized Communities
- Technological Innovations in Climate Health Monitoring
- Policy Frameworks for Climate Health Resilience
- Case Studies of Climate Adaptation in Health Systems
- Non-Communicable Diseases and Climate Change
- Water Scarcity and Health Implications
- Urbanization, Climate Change, and Health Risks
- Climate-Induced Migration and Health Challenges
- Economic Impacts of Climate Change on Health
- Cross-Sectoral Approaches to Climate Health Solutions
- Indigenous Knowledge and Climate Health Adaptation
- Air Quality and Respiratory Health in a Changing Climate
- Future Directions in Climate Health Research
- Education and Advocacy for Climate Health Action
- Building Sustainable and Resilient Health Systems

Author Benefits:

1. Selected chapters (not all) will be indexed in RSquareL and other indexing platforms including Amazon, Google Books etc.
2. Publication of chapter in book series with ISBN / ISSN
3. Publishing in IIP Proceedings Digital Library with DOI
4. Open access mode of publication in IIP Digital library
5. Optimized searching options to increase the visibility of the work to readers and other researchers which helps in citations.
6. Unique dashboard to Author
7. Easy paper/chapter management system with transparency of the process including peer review
8. One complimentary copy per chapter
9. Certificate to all authors who contributed chapter(s)

Chapter Submission Procedure:

- Step 1: Go to IIP website www.iipseries.org
- Step 2: Register in the portal by clicking on Signup
- Step 3: You can submit chapter at your dashboard or directly through IIP website after you login
- Step 4: Click on submit chapters
- Step 5: Select the book series title along with **Book Series ID** to which you wish to submit
- Step 6: Upload all necessary details along with your chapter in word file format. Refer **IIP Chapter format** at download in IIP Website

Support from IIP to the Editors & Authors

- *Reviewing support from IIP Reviewers
- *Plagiarism checking service
- *Submission management
- *Registration management
- *Individual dashboard

For any queries

Contact:9583338425

Mail us:mdaquatar.88@gmail.com

Registration Fee: USD 30 INR 2000 which includes processing fee with all above mentioned supporting services, certificate hard copy to all authors ,one complimentary copy of the book series registration
