Bharatiya Jurisprudence and Indian Knowledge System: Vedas to Verdict

Aims and Scope:

This edited book tries to probe the deep insights within the Indian Knowledge System (IKS) and its historical and philosophical roots, which are well established in ancient texts, including the Vedas. By bringing together traditional legal principles with contemporary legal thought, the book seeks to provide a comprehensive understanding of how Bharatiya Jurisprudence has evolved and its relevance to modern legal frameworks. The work aims to throw light on the essence of justice, ethics, and governance as expressed in traditional Indian philosophy, thus providing a vital discourse for scholars, practitioners, and educators attuned to both historical and modern legal paradigms. The book's scope covers a wide range of interdisciplinary themes: integration of IKS in constitutional, environmental, human rights, and family law. It will analyze pedagogical methodologies for introducing IKS in legal education, present case studies as examples of practical applications, and focus on comparative analyses between Bharatiya Jurisprudence and global legal systems, indicating what Indian legal thought uniquely offers in the resolution of contemporary issues. This edited volume seeks to foster a more profound appreciation for IKS in shaping a truer, more inclusive, culturally sensitive, and holistic approach to law studies and practice.
